INTERBEEF: WORKING TOGETHER ON NATIONAL AND INTERNATIONAL EVALUATIONS FOR BEEF CATTLE

10 DECEMBER, 2020
(H. 11.30 - 13.00 PARIS TIME)

BACKGROUND

- A** An informative seminar targeting countries and/or organizations that are interested in developing national and/or international evaluations for beef and dairy beef cattle.
- B** The seminar will give an overview of the current Interbeef services, including plans for the future, in the areas of new traits, breeds and future genomic evaluations.
- C** The seminar will draw on the direct experiences of established and also new members, as well as provide insights into the steps required for a potential new member to become involved in the services.

INTERBEEF AT A GLANCE

A

Interbeef is a Working Group of ICAR, with the objective of developing and promoting national and international evaluations of beef and dairy beef cattle.

B

The services are based on participating organizations, sharing phenotypes and pedigree to assist in the provision of the services.

C

The services to the members are then offered by the Interbull Centre, based in Uppsala, Sweden.

D

The current membership include 14 countries, 5 breeds (Charolais, Limousin, Simmental, Angus and Hereford), with a total of 42 million phenotypes in our services.

WORKING TOGETHER TO HELP
DELIVER NATIONAL AND
INTERNATIONAL EVALUATIONS
