

## **ICAR services for Quality Assurance in milk analyses**

**Silvia Orlandini**

Since 2016 SERVICE-ICAR has been providing an international proficiency test for several milk parameters and a milk analyzer certification.

The precision trends and the variance between different countries derived from the proficiency test evaluation will be presented.

The application of the ICAR protocol for the evaluation of milk analysers will also be presented to demonstrate the role of ICAR in assuring international comparability of test results.
