To Whom It May Concern

Over the past few months, ICAR has received a number of manufacturer queries about the ICAR tests conducted on the products supplied by other manufacturers.

The ICAR Guidelines indicate the test results are confidential to the manufacturer who submitted the relevant device for testing. After discussion between the ICAR administration team and the Sub-Committee for Animal Identification, ICAR will only issue statements regarding specific detail about a manufacturer's product to the specific manufacturer of that product. Should information be sought about any detail not listed on the ICAR website, then the manufacturer of that product should be queried directly.

Martin Burke
