Work/Action plan 12 mths

- Integrated approach milk recording systems / TF lead by Reinhard Pauw
- Exchange of ideas with WG Sheep and Goats on Guidelines for testing milk meters
- Next meeting spring 2007

Work/Action plan 12 mths

- SC RecDev to analyse impact from:
 - Integrated approach
 - Identification
 - ID of samples
 - Bias and accuracy of milk yield sensors/meters
 - Management requirements
 - Non-ICAR approved meters (actual status in member countries, results, accuracy)
 - Combining approved devices
 - Open communication with manufacturers about new developments

Thank you

SC Recording Devices thanks everyone for interest, contribution, help and hospitality
