

Interbeef Technical Committee Recommendations

Krakow, June 9th 2015

Official genetic evaluation

- **Maternal EBVs publication rules**
 - Proposition based on REL & Nb of progenies and grand progenies
 - Implementation and test at Interbull Center
- **Validation report after evaluation from Interbull Center**
 - proposition to be prepared for Interbull Center
- **Reference Contact list for Interbeef result access**
 - to be updated and made available on Interbeef webpage
- **Interbeef result officialisation process should be improved**
- **Need to have Animal status (AI...)**
 - anim info module to be implemented?
- **CHE results checks between TPA and CST (AWW vs Weight...)**

Interbeef Technical Committee Recommendations

Krakow, June 9th 2015

Research reports

○ **Calving Ease:**

- 1st genetic parameter set available
- New data call needed
- Test run needed

○ **Inclusion of crossbred animal into Interbeef evaluation**

- difficulties in genetic parameter reestimation
- any other countries interested?
- implications in routine evaluation to be well assessed by ITBC
(Fake ancestors, breed composition computation, new Irish model)

Interbeef Technical Committee Recommendations

Krakow, June 9th 2015

Research reports

- Interbeef result inclusion in national evaluation (UK and IRL)

=> work in progress:

- difficulties with maternal effects
- avoid data double counting

+ Scandinavian merge: new genetic parameter estimation needed
