Draft - status as of: 2010-05-28

Form PUB_BEEF

DESCRIPTION OF NATIONAL PUBLICATION POLICY FOR BEEF EVALUATION

| | |
|--|--|
| Country (or countries) | Spain |
| Breed(s) | Limousine |
| Address(es) of official web-site(s) of your country, where animals receiving an official breeding value can be found | Web site: www.razalimusin.org |
| Number of updates per year of webpage with breeding values | One |
| Do you apply any constrains in publishing national data? i.e. only animals with a minimum value of reliability or only until a certain rank level? Please specify | <p>Yes. Four lists are provided in the official breed catalogue, which is available in the web page:</p> <ol style="list-style-type: none"><u>1. Bulls:</u> Birth Weight: $\geq 60\%$ reliability; Weaning Weight –Direct: $\geq 60\%$ reliability, - Maternal: $\geq 50\%$ reliability.<u>2. Young bulls (15-36 months old and without offspring):</u> 25% higher Breeding Value for Weaning Weight-Direct.<u>3. Cows:</u> Best 50 cows for Weaning Weight breeding value. (Two lists, for Direct and Maternal components).<u>4. Star Cows:</u> Cows with breeding values above the 75 (one star), 90 (two stars) and 99 (stars) percentiles for each trait evaluated, listed by owner. |
| Do you differ from natural service bulls, AI bulls and bull dams? If so, please specify | Yes, we differ from natural service bulls and IA bulls. |
| Are there multiple lists for selected animals and all animals (e.g. incl. waiting bulls, bulls below requirements, bull dams)? | Yes, only selected animals are shown in the official catalogue grouped in the categories described above. Farmers receive genetic evaluations of all animals in their herds. |

|--|---|
| If multiple lists – are all lists accessible on your web-site? | Yes, all are accessible. |
| If multiple lists – what is the difference between the lists? | Differences described above. |
| If multiple lists – how many animals (i.e. bulls, dams etc.) are on the selected list? | In the lists of the bulls, young bulls and star cows, the number of animals varies with the year of genetic evaluation according to the number of participating animals and restrictions on reliability. In the list of cows, only the best 50 animals are published. |
| Do you publish Interbeef breeding values? | No |
| Are Interbeef proofs blended with domestic proofs? | - |
| If blending of international and national proofs – how is the blending done? | - |
| Minimum requirement for a bull and/or a dam for adjusted weaning weight trait to be put on the web-site | We don't include phenotypic data in the Web |
| Minimum requirement for a bull and/or a dam for carcass traits to be put on the web-site | - |
| Minimum requirement for a bull and/or a dam for calving ease traits to be put on the web-site | - |
| Other comments | 2009 was the first year of publication of the catalogue in the web page, which is available only in Spanish. |
