II PASSPORT FOR BOVINE ANIMALS

1. IDENTIFICATION NUMBER OF ANIMAL
2. Country of birth
3. ID of holding of birth
4. Premium status for bulls and oxen (special premium)
5. First age bracket
6. Second age bracket.
7. Passport no.: The passport serial number
8. Issue (original, duplicate)
9. DATA ON ANIMAL
 - Date of birth
 - Sex
 - Breed
 - Dam identification code
 - Sire identification code (optional)
10. Date of issue: The date on which the passport was issued.
11. Bar code - ID number of the animal

12., 13. 1st KEEPER, 2nd KEEPER, ...8th KEEPER

Data on each keeper:

- ID number of the holding (KMG-MID) and location,
- Postal address of the animal's keeper: Surname, Business name, Name, Street, House no., Postal code, Postal town,
- Date of receipt, Signature

14. MOVEMENTS ON COMMON PASTURE / MOUNTAIN PASTURE

Date of departure, KMG-MID and address, Date of return, Signature

Passport: front page

III. EARTAGS AND IDENTIFICATION NUMBERS

Identification number

Cattle are tagged with unique identification numbers from the following systems:

- regular id numbers (all animals tagged after 2001);
- old selection id numbers
- old veterinary id numbers
- imported id numbers

Description:

Regular id numbers:

SI + 8-digit code. The last 7 digits are a running number. The first digit is a check digit.

All animals tagged after 2001 are tagged with the regular id number. As of January 2004, 70 % of population is tagged by this id.

Check digit formula: $\text{mod}_{10}(\text{sum}(d_i * w_i))$

Digit (d _i)	1	2	3	4	5	6	7
Weighing factor (w _i)	3	7	9	11	13	17	19

Example:

Digit (d _i)	1	2	3	4	5	6	7
Weighing factor (w _i)	3	7	9	11	13	17	19
Total	3	14	27	44	65	102	133

Check digit = $\text{mod}_{10}(3+14+27+44+65+102+133) = 8$

The model of the first ear tag
(length at least 45 mm, width 55 mm):

The model for the second ear tag (length
at least 35 mm, width 40 mm, minimum
height of characters 5 mm):

Old selection id numbers:

SI + 7-digit code or SI + 6-digit code.

A running number.

Current population: 27 % of population,
animals born before 2001.

Old veterinary id numbers:

SI +8-digit alphanumeric code.

Current population: 3000 animals,

The holding register (RGG) shall contain the following data:

1. About the holding:
 - Holding id (KMG-MID), the name and surname or business name, the address of the keeper, and the address of the holding (if different);
2. About each bovine animal on the holding:
 - identification number of the animal, date of birth, breed and sex,
 - identification number of the Dam; in the case of a transplanted embryo, also the id of the biological mother,
 - identification number of the Sire if known,
 - date of arrival of the bovine animal on the holding and KMG-MID of the holding of origin or the name and surname or business name and address of the previous keeper of the bovine animal,
 - date of departure of the bovine animal from the holding and KMG-MID or name and surname or business name and address of the new keeper of the bovine animal or date of death, if the bovine animal has been destroyed or slaughtered of necessity on the holding;
3. About on-the-spot control:
 - name, surname and signature of the inspector who performed the control,
 - date of the control.

The keeper must retain the RGG at the location at which the bovine animal is kept or in a manner that the RGG is practically accessible from that location. The RGG may be kept in written or computer form. Data must be retained for at least three years from the day when the last bovine animal leaves the holding.

REGISTER

Title:

**REGISTER GOVEDI
NA GOSPODARSTVU**

KMG-MID
IDENTIFIKACIJSKA ŠTEVILKA
KMETIJSKEGA GOSPODARSTVA: _____

DATUM NASTAVITVE REGISTRA: _____

ČREDA:

Na vsakem gospodarstvu, kjer se redi govedo, je imetnik živali dolžan voditi **REGISTER GOVEDI NA GOSPODARSTVU**. V register govedí na gospodarstvu je potrebno vpisovati vse dogodke na gospodarstvu (rojstva, premike, pogine). Imetnik živali je odgovoren za pravočasno vpisovanje vseh podatkov v register govedí na gospodarstvu.

Holding data:
