

ICAR RSD-SC welcomes Andrew Scott

**Andrew Scott, LIC, New Zealand
joins the ICAR RSD-SC**
(September 2018)

The ICAR Recording and Sampling Devices Sub-Committee (RSD-SC) is pleased to welcome Andrew Scott from New Zealand.

Andrew Scott joined LIC since 2011 and currently holds the position of Quality Manager for Herd Testing. As part of this role, Andrew is responsible for all aspects of compliance to the NZ Herd Testing Standards, and subsequently all the equipment used for this service including milk meters. With a strong technical background, Mr. Scott has used his qualifications in biotechnology and project management as part of the LICA Research and Development team. Mr. Scott has a deep understanding of the scientific aspects of measurement devices as well as extensive practical experience in their application within the herd testing environment.

For a complete listing of the members of the RSD-SC and the ICAR Test Centres, please [visit the web page here](#).
