https://us02web.zoom.us/webinar/register/WN_0qcWVZ-jRVCHEP1W8HIzTA

CHAIRING

Christian Baumgartner
(Chair of ICAR Milk Analyses Sub-Committee)

PRESENTER

Silvia Orlandini
(ICAR Milk Analysis Certification Executive)

INTERESTED AUDIENCE

Managers and Technicians of Milk Testing Laboratories

Overview

ICAR proficiency testing scheme is an accredited ISO 17043 proficiency test that have more than 50 laboratories participating to the annual rounds, performed in March and September.

From March 2021, a new platform is available to manage the ICAR proficiency test. You can do your subscription, upload your analytical results and download your individual report.

During the webinar, the global performance of the different parameters will be illustrated and the specific attention will be dedicated to the international traceability for the parameter somatic cell in milk.

This webinar would like to be an additional opportunity for ICAR to stay at your side to support you in any way we can to help to improve overall quality management systems for milk analysis.

Why to attend

- Understand the ICAR quality policy
- Learn how to use the ICAR PT platform for participating to the ICAR Proficiency Test (PT)
- Receive an overview of the milk parameters trend in the ICAR PT
- Have an outline on the comparison of ICAR PT SCC assign value and SCC assign value traceable to EC JRC CRM SCC
- How to join a worldwide community to make milk analysis traceable
