

**International Committee for Animal Recording (ICAR)
Membership Application Form**

Please complete this form and send it by email to: administration@icar.org

As stated in the Statutes of the association, the objects of ICAR shall be to promote the development and improvement of performance recording and evaluation of farm animals. Such objects are to be achieved through establishing definitions and standards for measuring animal characteristics having economic importance.

ICAR develops and establishes standards that define criteria to be applied consistently in the provision of recording and evaluation services; in the manufacture and supply of animal identification, performance, and functional recording devices; and in testing such devices and in the analysis of animal products and performance for recording and evaluation purposes.

ICAR rules set forth the basic principles for animal identification, parentage registration, performance and functional recording, and genetic evaluation. Based on sound scientific evidence, the ICAR guidelines recommend procedures and methods for animal identification, parentage registration, performance recording, and genetic evaluation.

“I declare to have read and accept and comply with the following:

- Statutes of ICAR and the internal regulation on the use of the name and logo.
- The company and director/owners comply with the latest international sanctions regulations as set out by the Office of Foreign Assets Control and the Financial Action Task Force on Money laundering (FATF)² before and know that ICAR will check the same before acceptance.”
